CORONAVIRUS

Information about COVID-19

COVID-19 is a new virus that has not previously been found in humans.
The majority of those infected are found in the Hubei province in eastern China.

After returning from China

Call a doctor if you develop respiratory tract symptoms within 14 days of returning from China. This also applies if you develop symptoms and have recently been in close contact with a person with coronavirus infection.

Symptoms of respiratory tract infection
-Fever
-Dry cough
-Troubled breathing

Note: It is important that you call the doctor in advance before going to the doctor's office or the emergency department.

Call a doctor if you develop respiratory tract symptoms within 14 days of returning from China.
